## **ABSTRACT**

This Final Environmental Impact Statement (FEIS) documents the analysis of the potential effects of implementing each of eight alternative leasing scenarios for management of the Federal oil and gas estate on lands administered by Los Padres National Forest in Kern, Los Angeles, Monterey, Santa Barbara, Ventura, and San Luis Obispo Counties, California. The FEIS documents the existing condition of the environmental resources in and around areas being considered for leasing and the potential impacts to those resources as a result of implementing the alternatives. The alternatives considered in detail are: (1) No Action -No New Leasing; (2) Emphasize Oil & Gas Development; (3) Meet Forest Plan Direction; (4) Emphasize Surface Resources; (4a) Alternative 4 With Roadless Area Emphasis; (5) Combination of Alternatives 3 & 4; (5a) Alternative 5 With Roadless Area Emphasis; and the New Preferred Alternative, a combination of alternatives 1 and 5a.

## **CONTENTS**

---

---

# **Contents**

The contents of this Final Environmental Impact Statement are organized into two volumes. This volume contains the executive summary and chapters 1 through 9. A separate Appendices volume contains appendices A through I. In each volume the chapters or appendices are separated by colored paper to facilitate the reader in referencing various sections of the document. Tables of contents and lists of figures and tables are located at the beginning of specific chapters and appendices where appropriate.

## **This volume**

|           |                            |
|-----------|----------------------------|
| Summary   | Executive Summary          |
| Chapter 1 | Purpose and Need           |
| Chapter 2 | Alternatives               |
| Chapter 3 | Affected Environment       |
| Chapter 4 | Environmental Consequences |
| Chapter 5 | Preparers and Contributors |
| Chapter 6 | References                 |
| Chapter 7 | Glossary                   |
| Chapter 8 | FEIS Distribution          |
| Chapter 9 | Responses to Comments      |
| Index     | Index                      |

## **Appendices Volume**

|            |   |
|------------|---|
| Appendix A | Lease Decision Issuing Process                      |
| Appendix B | Lease Stipulations and Standard Lease Terms         |
| Appendix C | Oil and Gas Exploration, Development and Production |
| Appendix D | Reasonably Foreseeable Development Scenario         |
| Appendix E | Best Management Practices                           |
| Appendix F | Agency Consultations                                |
| Appendix G | Comment Coding Table                                |
| Appendix H | Federal, State, and Local Government Comments       |
| Appendix I | Index   |
