

Los Padres National Forest ENVIRONMENTAL NEWSLETTER

May, 1992

ABOUT THIS NEWSLETTER

The purpose of the "Environmental Newsletter" is to encourage public input to on going environmental analyses and provide notification of completed analyses in Los Padres National Forest. The newsletter is issued every other month and is intended to complement public participation efforts initiated by the Forest Supervisor or District Rangers for specific projects. It includes a brief explanation and location of each project, the responsible Forest Service office, and the date the project was first addressed in the newsletter. The analyses are listed by county and by categories which correspond to the environmental analysis process.

Environmental Analyses Being Scoped

This section includes analyses for which public input is being or is about to be solicited.

Environmental Analyses Completed

This section includes those analyses which have been "categorically excluded" from documentation in an Environmental Assessment (EA) or Environmental Impact Statement (EIS) and which have culminated in the preparation of a Decision Memo. The Decision Memo contains the responsible forest officer's explanation of his/her decision to exclude a proposed action from documentation in an EA or EIS.

Environmental Analyses Documented

This section addresses recently completed EA's and Draft and Final EIS's.

Environmental Analyses in Progress

This section includes projects currently under study.

For further information regarding the environmental analyses described, opportunities for public participation, or the availability of documents, please contact the Forest Service office indicated under the project description. For information on the environmental analysis process, contact Forest Planning Officer Gerry Little. For all other matters regarding this newsletter, contact Kathy Good in the Public Affairs Office.
