

Los Padres National Forest ENVIRONMENTAL NEWSLETTER

January, 1997

DEAR FRIEND...

The purpose of the Environmental Newsletter is to provide you with an overview of proposed activities and projects in Los Padres National Forest. It is our hope that this information will help you become involved early in the planning process for those proposals which might interest or affect you.

The newsletter is issued quarterly (January, April, July, October). It includes a brief explanation and location of each project, the date it was first addressed in this publication, and a contact point for further information. Projects are listed by county and by the categories described below.

For further information regarding specific projects, opportunities for participation, or the availability of documents, please contact the Forest Service office listed under each project. For information on the environmental analysis process, contact NEPA Coordinator, Jim Turner. For all other matters regarding this newsletter, contact Kathy Good in the Public Affairs Office.

Analyses Being Scoped

This category includes new projects for which public input is being or is about to be solicited.

Analyses Completed

This category includes projects which have been "categorically excluded" from documentation in an Environmental Assessment (EA) or Environmental Impact Statement (EIS) and which have culminated in the preparation of a Decision Memo.

Analyses Documented

This category addresses recently completed EA's and Draft and Final EIS's.

Analyses in Progress

This section includes projects currently under analysis.

FORESTWIDE

Analyses in Progress

Oil and Gas Leasing Analysis. Forestwide environmental analysis (EIS) to identify lands which should or should not be made available for oil and gas leasing. The decisions made as a result of this forestwide analysis will not result in on-the-ground activities. Any exploration, drilling or field development which might be proposed following the forestwide study would require further environmental

analysis and separate site-specific decisions. Contact Al Hess, Oil and Gas EIS Project Leader, at 805-681-2794. September, 1995.
